

Nursetlogs

Side Table/Planter

These Western Red Cedar side tables are dual-purpose, bringing a touch of the forest into your home. Mimicking rain forest stumps that grow mosses and ferns from their tops, a round glass insert allows a small arrangement of plants to add a living element to a functional surface. Each Nursetlog side table is custom made — no two are alike. Perfect for outdoor living areas: when left to weather in the elements this piece will acquire a natural silver finish.

MATERIALS

Western red cedar; recycled glass planter insert
